Salvador Rodelte.

Team #10 ~ DineCheck

#1

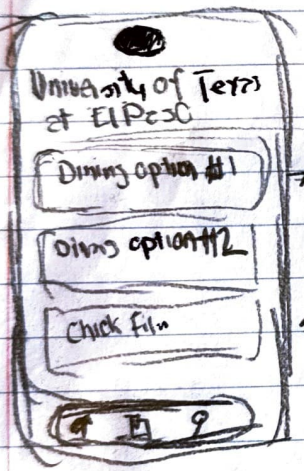

→ short bar (floating)

→ liquid glass ~ iOS 26→27
↳ Dynamic bar (option for us to add fectures)

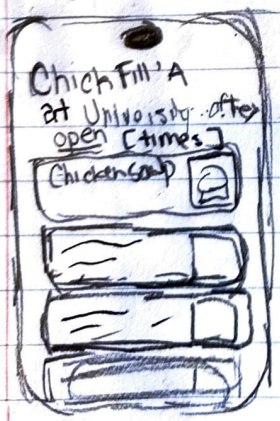

↓ #2

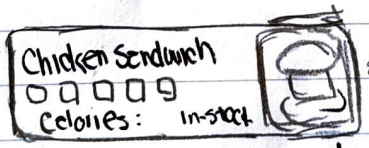

← Cached (logged in campus persists in memory until campus is changed).

← List of places, visible logo, open/close word (colored)
↳ operating hours.
↳ scrollable; clicking on one expands the dining option menu.

↓ ↓ ↓

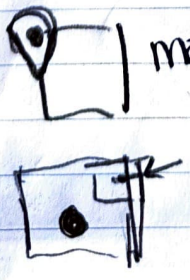

#3

← picture of the meal.

← shown in order
[Name of food]
[Allergens & ingredients]
[Calories] [Availability]

maps show dining positions near you using location in a map.
clicking on a dining option opens the same menu as shown in view #3.
